

Panduga Manoj Kumar

Full Stack Developer Intern

+917993149379 | pandugamanoj9@gmail.com | [linkedin.com/in/manoj-kumar-panduga-a996a834b](https://www.linkedin.com/in/manoj-kumar-panduga-a996a834b) | github.com/1Manojkumar1 | leetcode.com/u/ManojKumarCodes | Hyderabad, India

PROFESSIONAL SUMMARY

Full Stack Developer intern with hands-on experience building production-grade web applications using React, Next.js, Node.js, and REST APIs. Developed full-stack platforms with secure authentication, role-based access control, and real-time features. Strong foundation in frontend (HTML, CSS, JavaScript, React, Next.js) and backend (Node.js, Express.js, FastAPI) with SQL/PostgreSQL database experience. Proven ability to own projects end-to-end through 8+ hackathons and 3 production deployments. Seeking a 6-month Full Stack Developer internship to contribute to education technology transformation.

EDUCATION

Anurag University

Bachelor of Technology (B.Tech) in Computer Science and Engineering | Hyderabad, India

CGPA: 8.57/10

Aug 2024 - Aug 2028

CERTIFICATIONS

NPTEL: Java Programming (score: 88%)

NPTEL: Fundamentals of Computer Algorithms (score: 71%)

EXPERIENCE

InAmigos Foundation Web Developer Intern (Remote)

inamigos-awareness.surge.sh

- Developed and deployed a responsive nonprofit website from scratch using HTML/CSS, featuring impact statistics, project showcases, and testimonials for an organization operating across **28 states**.
- Audited a live production website using Chrome DevTools, identifying critical security and UX issues, and delivered a report with prioritized fixes.

PROJECTS

EventSync Full Stack Developer

Nov 2025 - Dec 2025

github.com/1Manojkumar1/EventSync | event-sync-navy.vercel.app

- Architected an event management platform using **Next.js, React, TypeScript** and Firebase with secure authentication and role-based access control, implementing UI mockups into responsive pages.
- Designed a weighted scoring engine for volunteer-task assignment, improving allocation efficiency by 25%, and monitored application reliability ensuring consistent uptime during concurrent user sessions.
- Collaborated with team using Git/GitHub workflows, conducted code reviews, and delivered high-quality features within deadlines.

Technologies/Tools Used: Next.js, React, TypeScript, Firebase, Firestore, Recharts, REST API, Git

CurrHub Full Stack Developer

Feb 2026 - Mar 2026

github.com/1Manojkumar1/CurrHub | currhub-ai.onrender.com

- Built an AI-powered learning-path platform using **FastAPI (Python) and Node.js** with PostgreSQL database, orchestrating AI-driven pipeline to generate structured learning curricula.
- Engineered a Mermaid.js visualization engine rendering 15+ dynamic learning graphs per curriculum and conducted structured testing of API responses across edge inputs.
- Deployed stable backend on Render handling 100+ concurrent API requests; optimized database schema with indexing, reducing query latency by ~40%.

Technologies/Tools Used: Python, FastAPI, Node.js, PostgreSQL, JavaScript, Render, REST API, SQL

Convera Full-Stack Developer

Jan 2026 - Feb 2026

github.com/1Manojkumar1/convera | convera-nine.vercel.app

- Built a real-time chat application using Firebase Firestore with Google OAuth 2.0 authentication in an event-driven architecture.
- Implemented real-time synchronization using Firestore listeners, enabling message delivery under 300ms without polling, and optimized database schema with indexing.

Technologies/Tools Used: JavaScript (ES6), HTML5, CSS3, Firebase, REST API, Git

SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST API Design, JWT Authentication

Databases: PostgreSQL, SQL, MongoDB, Firebase, Supabase

Tools & Workflow: Git, GitHub, VS Code, Vercel, Render, Chrome DevTools, CI/CD

Programming Languages: JavaScript, TypeScript, Python, Java, C++

Core CS Concepts: Data Structures & Algorithms

ACHIEVEMENTS

- Secured Top 10 position in InnoQuest 2.0, a college-level hackathon.
- Participated in 8+ hackathons, collaborating in teams to develop full-stack applications and prototypes under time constraints — rapid prototyping & product sense.
- Solved 140+ problems on LeetCode in Java and C++ — strong logical and problem-solving skills.
- Strong foundation in Data Structures and Algorithms with hands-on implementation in Java, Python, and C++.
